## SGoPack Man-Portable Fixed COTP - MIL-STD Flat-panel user terminal

The Inster FD9 terminal is man-portable, self-aligning, easy to deploy ESA, optimized for operation over the OneWeb Ku-Band LEO satellite constellation. With its low-profile, foldable, full-duplex antenna, the Inster terminal represents a game changer for military operations and emergency response in areas beyond the bounds of traditional fixed and wireless networks .

The terminal is lightweight and capable of operating via external battery, yet delivering high-speed data, video and voice services under the toughest environmental and battle conditions

It comes with a Wi-Fi 6 built-in modem, an AC/DC unit, tripod, transit case and batteries. Perfect for civilian and military operations. The terminal is designed in compliance with MIL-STD 810H and MIL-STD 461G standards.

## Features:

Full dúplex, foldable,
1-man portable, flat panel antenna.

Lightweight and self-aligning.

Throughput up to $195 \mathrm{Mbps} / 32 \mathrm{Mbps}(\mathrm{DL} / \mathrm{UL})$.

Operates with external OTS batteries.
